

Full name and credentials:

Leslie Matthew Lunce, BA, MS, Ph.D.

Email:

lmunce@yahoo.com

Bio:

Beginning his academic background with BAs in Computer Science and Economics, Les completed his MS in Computer Education and Cognitive Systems at the University of North Texas in 2003. In 2007 Les completed his Ph.D. in Educational Computing at the University of North Texas. Les's dissertation topic and his principle ongoing research interest is the design, deployment and assessment of instructional simulations. Other research interest include virtual environments and learning spaces. Publications include articles and conference proceedings on simulations, wayfinding in virtual worlds and multiple intelligence. Les lived in Hong Kong for several years and has traveled extensively throughout Asia and the UK. His interests include Medieval and Renaissance music, digital video, model railroading, cross-cultural experiences and video games.
